

When considering family heirlooms, we sometimes overlook the most priceless heirlooms of all - OLD PHOTOGRAPHS of relatives, homesteads, and times long past. Usually tucked away in a drawer or a box in the attic are precious memories with an emotional link to our heritage.

Quite often, through the passage of time, these photographs become creased, torn and scratched or are simply fading away ... the memories lost forever.

We can skillfully restore these precious photographs and, in some cases, even enhance their appearance.

Frequently Asked Questions

What will happen to my original photograph?

Your original photograph will be returned to you intact. The original is professionally scanned in order to convert the image into a digital file that the computer software can use for manipulation and output to a printer.

How is the restoration done?

Using powerful computer software, careful attention is taken to match the tone, density and color of the finished work to the artwork so that it is barely perceptible.

How much will it cost?

The cost will vary, depending on the condition of the original and the degree of enhancement that is required.

All restoration is done on an estimate basis, at no cost or obligation.

If the estimate is accepted, you will be asked to place a deposit and sign a copy of the estimate.

Do you have precious, old, one-of-a-kind, photographs that are damaged and faded? These can be restored and enhanced through several steps using top quality scanners and computer software.

The following is a guide to be used in estimating the cost of this specialized service.

Minor Restoration	\$108.00
Major Restoration	\$182.00
Extensive Restoration	\$290.00

Scanning

Flatbed scans are used to convert your original photograph into a digital image. Your original is not harmed by this process.

First Scan	\$20.00
Additional Scans at the same time	\$10.00

We can also scan slides and negatives and make prints from the digital files that are produced.

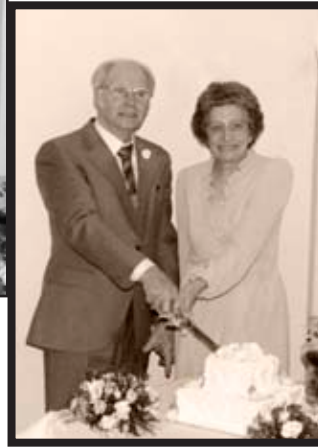

Artwork

Included in the artwork restoration are repairs, background changes and replacing missing parts.

A proof for your approval can be supplied before the final print(s) are created.

Computer manipulation \$10.85 / 10 min.

All special restoration artwork is done on a free estimate basis.

Special Handling

Framed prints require special handling. If you wish, we can carefully remove your original from its frame, scan the print, and reinstall the original in your frame. We will only undertake this at your risk.

Minimum charge\$20.00

Finished Prints

The finished copy of your print, artwork, slide or negative scan are created on professional photographic paper. These prints are extremely lightfast and durable. Prints can be made in color, sepia tone or black & white.

8x10 Print Units

You can choose from the following 8x10 print units to make up the package that you want:

- 1 - 8x10
- 2 - 5x7s
- 4 - 4x5s
- 8 - wallets

First unit	\$32.00
Additional units (same image)	\$13.00

Display

These mounts provide a simple way to display your finished prints:

8x10 easel mount	\$3.75
5x7 easel mount	\$2.50
4x5 easel mount	\$2.00

Other print and display options are available. Please ask for the Finished Prints & Folios and the Cards & Reprints pricing schedules.
